Quality insurance

Denise es Sandy Kft integrated the HACCP concept for good manufacturing practice, hygiene and safety according to accepted EU standards. Our products and processes are controlled regularly by the Hungarian Wessling Hungary Kft. Laboratory.

Company Information

Denise es Sandy Kft is a Hungarian producer and processor of organic walnuts and run as a family business. We own 42 ha of plantation land and harvest 40 t of walnuts in shell annually (mean over 6 years). There is no conventional farming on our land, we are solely producing certified organic products according to European standards (EC no. 834/2007, 889/2008). Our processes and products are controlled by the Biokontroll Hungária Nonprofit Ltd.
